ApconiX is recruiting an Expert Electrophysiologist

ApconiX is a team of world-renowned nonclinical safety experts with over 400 years of drug discovery and development expertise. We were formed in 2015 by three scientists with the drive and ambition to create a world-renowned company. We are now looking to grow our team of experts by the addition of talented and dedicated life scientists who would enjoy this busy and dynamic environment. You will need to be flexible, collaborative and highly organised and to approach your work with passion and a sense of fun. Because we are a growing company, this is a great opportunity to make a huge impact and be part of something special.

You will be based at our headquarters at Alderley Park, the UK's largest science park in the heart of the beautiful Cheshire countryside, close to Manchester and its International Airport (10 miles) and with direct trains to London every hour from Wilmslow/Macclesfield.

The Role: We are looking for an expert electrophysiologist who can step into our ion channel team to develop and deliver manual patch clamping for research purposes and to meet the needs of our growing client base.

Your Profile: You will have at least 3 years of manual patch clamping experience and an in-depth knowledge of ion channel biology. You will have the experience to work alone and in a team, designing, conducting, interpreting and reporting electrophysiology data, supported by our team of expert electrophysiologists and our highly experienced project toxicologists.

Candidate essential requirements:

- Qualified to PhD level in Biological Sciences or similar
- At least 3 years' experience of manual patch clamping
- A developing scientific track record in electrophysiology
- Fluent English with excellent communication skills
- UK right of abode

The position is for 12 months with the possibility of a permanent role in the future. We are looking for full time employees, but we are highly open to part time and/or flexible working. The company offers competitive pay, pension and holidays.

How to Apply

Please submit a CV with covering letter to careers@apconix.com by July 31st 2021. For more information, please contact Dr Michael Morton at Michael.morton@apconix.com or on 07340767568. Interviews will take early August.
